This is set down as "the absolute necessity," while it is added that this will " also shut the mouth of the Russians." Although this sort of yapouring is not the kind of force at all calculated to shut the mouth of Russia, even were it ayowedly the language of the Peking Government, still it goes to prove the measure in which the official body of China has been moved by Russian diplomacy. It is doubtful, however, whether this expression will place Chung How in any worse plight than that in which he formerly appeared to be-There can be no question that his punishment, his life it may be, is being played

as a political card; and any amount of shuffing will matter but little sither one way or another. What the Treaty amounts to, what are the reasons for its repudiation, and what are the prospects of war consequent upon a refusal to ratify it, are the main points dealt with in the Mamorial. It is unfortunate that the version of the Treaty given by the Shanghai Courier is apparently not complete; but it is sufficiently full to enable the careful reader to follow Chang Chih-tung's commentary. For five million roubles the Russians will give back to China three-fourths of the province of Iti; but even this concession is vitiated by the fact that Russia still holds the road from Kuldia into the ceded province. The number of trading places there will grow up with daily increasing abundance like weeds; nothing more will be kept secret, everything will be known, and while the passes at the frontier are well guarded, the interior of the country is The publication of this usus commenced already lost." This touches the tender susceptibilities of the auti-foreign party to the quick: it is not so much what is seked but what it will lead to. Another deted is that by Consular ports and mercantile depote in the Pastern (Mahchurian) provinces, at Petune and Kirin (say 300 and 200 miles, respectively, west of the Amoor Mouth), the country will be further opened up to Russia. THE SITUATION.

Allahabad, May 1.—Abdul Rahman, it stated, has written a conciliatory letter to the representatives of the British Government at Kabul. The letter was brought to Kabul on the 19th of April, at four p.m. by Mir Gholam Hyder, son of Gholam Jan, Khoja Imam Jan, of Purwen, brother of Mir Butcha, and other leading Kohistanis, whom Abdul Rahman deputed. The Sirdar writes professing himself the servant of the British Government, and states he is proceeding to Kabul to tender submission. He trusts the Government will not deem him an opponent on account of his long residence in Russian territory. The Russian Government have not given him any help whatever either in money or men, but that he received money from the Ameer of Bokhara, that he left Russian territory of his own second and responsibility, that the Turkestan people, including the resident Kohlstanis, Logaris, and others, with remnants or the late Ameer Shere Ali's army, have already acknowledged him as covereign. He then reiterates his readiness to comply with the wishes of the Government, and it appears, although his statement on this point is not sufficiently explicit, that he raises no protest againt the severance of certain districts of Afghanistan. He also expresses the conviction that the people of Turkestan generally will gladly accept him as Ameer. The letter was written at Khinjan, the other side of the Hindoo Koosh, hall-way between the bill and Ghor, due south of the Kunduz. The passes leading from Khinjan to Charikar, which are the headquarters of the Kobistani faction, will remain blocked with snow till about the middle of May, when it is expected that Abdul Rahman will cross over. It is also stated he has remitted part of the revenue due by the Turkestania, saying that he would not claim anything before the settlement of the Ameership. Doubts are entertained of the truth of the statement, that Abdul Rahman put

Gholam Hyder Khan to death. It is now alleged that Gholam Hyder Khan was condemned, but that Abdul Rahman spared his life at the last moment. The Logar is reported quiet, as are also Ar-

gandeh and Maidan. May 5 .- Abdul Wabab, who fled Langar, in Wardak, has now returned to Argandeh, his native village. Kila Ha and Tumma are reported as infested by Kohistani robbers, who are plundering all travellers. It is reported that all the near Kohistani gatherings have entirely broken keeping the Brisish money to themselves. THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication modified in certain details.

tervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published into which we are now ready to receive. demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents

in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resumé in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. The present publication, judging Photographic Studio, 8, Queen's Uruguay I. by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese | EWEN, FRICKEL & Co. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance. This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports. It is the first Chinese Newspaper ever

issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business andlegal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 8,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find It to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in tonein almost limitless. It on the one hand ommands Chinese belief and interest 2nd Class Cargo Boat of 600 while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to GEO. MURRAY BAIN China Mail Office.

2.—Small aums may be remitted between the other Ports by means of Postage Stamps, subject to a charge of one per cent, for cashing them.

3.-Many Money Orders are supplied to residents at the smaller Ports in this way. The application must be accompanied with the full amount (including commission) in cheque, postage stamps, or other equivalent of cash, and a little margin should be left for variations of exchange. The Postmaster issues the order, sends it on in the envelope, and returns the change, if any, by first opportunity, with a receipt for the letter, if it were to be registered, as it always should be. Care should be taken to send these applications in time, as the Money Order Offices close some hours before the depar-
